If I could get something by the end of next week, that would be great. Kyle, sorry we haven't been able to touch base. Let me know if you want to talk more. Thanks! - Jenny

Hi Jenny. I just briefed Kyle on our conversation. He will pull together the information we discussed as I will be on the road for much of the next 2 weeks.

Do you have a deadline in mind?

M

Subject: Clarifications on program

Hi Marganne - thanks for the information last week. On the call, we talked about whether EPA and NOAA's determinations could be based on anything new that the State submitted after the public comment period. Our legal and technical team talked and agreed that we can't consider new information, but we can include clarifications on what the State submitted. Since the State's submittal talked about many of the regs under FPA and FIFRA, I think we'd be able to include some of the information that you and I talked about.

If you're able to send me some more of the materials we talked about re: outreach and education for aerial applicators or other materials that you, Kyle, and Karen also think are related to what the State submitted, that would be helpful. If we should set up a meeting for all of us to talk, we can also do that.

Thanks,
Jenny
